## ABOUT ME

I'm Mohsin, a full-stack developer proficient in **PHP, Laravel, HTML, CSS, Bootstrap, JavaScript, Ajax, MySQL, and MariaDB**. I create scalable web applications with a focus on backend and frontend development. With expertise in payment gateways (**Stripe, PayPal**), **API integrations**, and real-time features like notifications and live chat, I deliver user-friendly solutions. I stay updated on industry trends to provide innovative results that exceed client expectations.

## WORK EXPERIENCE

15/09/2023 – CURRENT Karachi, Pakistan  
**MINDFLARE TECHNOLOGIES FULL STACK DEVELOPER**

- QR Code Integration**
  - Easy generation and scanning of QR codes for streamlined access and enhanced user engagement.
- Payment Method Integration**
  - Secure integration of various payment gateways, enabling smooth and efficient transactions for users.
- Theme Integration**
  - Customizable themes that ensure a responsive design and improve the overall user experience.
- WhatsApp API Integration**
  - Utilization of WhatsApp API for timely notifications and updates, fostering effective communication with users.
- Lead Project Management & Invitation**
  - Efficient management of leads with invitation features, streamlining project oversight and enhancing user interaction.

01/06/2024 – CURRENT Karachi, Pakistan  
**Q TECHNOLOGIES FULL STACK DEVELOPER**

- Real-Time Chat**
  - Backend (Laravel) Setup for Chat:**
    - Use **Laravel WebSockets** or **Pusher** to handle real-time communication.
    - Create a Chat model and migration to store messages between users (students and instructors).
    - Implement user authentication to manage who can send/receive messages.
    - Use **Broadcasting** events in Laravel to broadcast new messages to all participants in real-time.
- Real-Time Video Call**
  - Backend Setup for Video Calls:**
    - Use a video calling service like **Twilio** to handle video communication.
    - Allow instructors to create virtual rooms for video calls. Save room details in the database.
    - Integrate a video calling API in Laravel to create and manage rooms dynamically.

27/04/2023 – 30/09/2023 Karachi, Pakistan  
**BRAINWAVE TECHNOLOGIES PHP LARAVEL**

- Admin Panel**
  - Comprehensive dashboard for managing car inventory, monitoring transactions, and overseeing dealer and staff activities.
- Dealer Panel**
  - User-friendly interface for dealers to manage their listings, track sales, and communicate with the admin.

## Staff Panel

- Streamlined access for staff to assist customers, manage service requests, and update car details efficiently.

---

15/04/2024 – 31/05/2024

## HTML, CSS, and Java Script For Web Developers

---

I successfully completed the **HTML, CSS, and JavaScript** course at 10Pearls University, gaining a solid foundation in front-end development. This course provided in-depth knowledge of building responsive websites, dynamic interfaces, and enhancing user experience through interactive elements. It was a comprehensive learning experience that improved my skills in designing and developing efficient web applications.

You can view my certificate here: <https://10pearlsuniversity.org/view-certificate/?cid=10PUC-c61cd79af7201ec007940b65a91d51899b340fc8dd96d696325539467>

01/07/2025 – 11/07/2025

## Mastering Laravel Framework and PHP

---

In the "Mastering Laravel Framework and PHP" course from Coursera, I gained comprehensive expertise in PHP development and the Laravel framework. This course covered essential concepts like MVC architecture, RESTful services, database interactions, and building scalable web applications. I also learned advanced features of Laravel, such as Eloquent ORM, middleware, and blade templating, enabling me to craft efficient, secure, and feature-rich web solutions.

You can verify my certificate here: <https://www.coursera.org/account/accomplishments/verify/47JSANMVJWJT>

## LANGUAGE SKILLS

---

Mother tongue(s): **URDU**

Other language(s): **ENGLISH**

## DIGITAL SKILLS

---

PHP | Laravel | CodeIgniter | Html | Css | Bootstrap | Javascript | GitHub | MySQL | MariaDB | JQUERY/ AJAX | Full stack PHP development | REST APIS' | Stripe (Payment Gateway) | Api Integrations | Pusher | MongoDB | Payment integration | React(Beginner) | Frontend Development (HTML,CSS, JavaScript) | Backend-Development

## PROJECTS

---

01/06/2024 – 04/08/2024

## Garry Lms (Learning Management)

---

**Garry LMS** is a comprehensive student learning management system that provides real-time communication through chat and video calls, allowing seamless interaction between students and instructors. It features course management, where instructors can add and manage courses. Additionally, the platform includes exam functionality and generates certificates upon course completion, ensuring a complete educational experience
